WHAT IS THIS PRODUCT?

Type

This product – **CASCADE 8 INVESTMENT SHARES**, is a distributing class of investment shares issued with respect to **CASCADE 8**, an open-ended investment compartment (the "Investment Compartment") of **CASCADE INVESTMENT FUND RAIF V.C.I.C. LTD** (the "Company"). The Company operates as a Registered Alternative Investment Fund (the "RAIF") in the form of a variable capital investment company in accordance with the Alternative Investment Funds Law 124(I)/2018, as amended from time to time (the "AIF Law"). The Company is managed by **ARGUS MANAGEMENT LTD** (the "Fund Manager or PRIIP Manufacturer"), a private company limited by shares which is authorised by the Cyprus Securities and Exchange Commission to operate as an Alternative Investment Fund Manager with licence number AIFM44 in accordance with the Alternative Investment Fund Managers Law 56(I)/2013, as amended from time to time. The Depositary of the Company is **MEGA EQUITY SECURITIES & FINANCIAL SERVICES PUBLIC LIMITED**.

CASCADE 8 Investment Shares are issued with respect to the Investment Compartment and carry non-voting rights, in accordance with the Company's prospectus. None of the shares issued by the Company, including **CASCADE 8** Investment Shares are listed on any regulated exchange market or multilateral facility. The Fund Manager has discretion over the investments of the Investment Compartment, subject to the provisions of the Company's prospectus and the offering supplement of the Investment Compartment. The assets and liabilities of each Investment Compartment of the Company are segregated as per article 9 of the AIF Law. Even though the AIF Law refers to segregation between investment compartments, the AIF Law has yet to be affirmed by judicial authorities through court proceedings. As such, no definitive assurance can be provided regarding the enforceability of investment compartment segregation in case of liquidation of any investment compartment, or distribution of profits with respect to each investment compartment or in other circumstances. Investors currently do not have the right to exchange any of their **CASCADE 8** Investment Shares into investment shares of another investment compartment of the Company. Any dividend relating to **CASCADE 8** Investment Shares is to be distributed at the discretion of the Board of Directors after proposal by the Fund Manager.

Term

This product has no fixed maturity date, however, the Investment Compartment may be liquidated upon a unanimous written resolution of the board of directors of the Company, in accordance with the AIF Law and the provisions of the Articles of the Company.

Objectives

The Investment Compartment's objective is to achieve long-term capital growth primarily by investing in carefully selected mix of early, growth and late-stage venture capital companies focused on European and US Technology exhibiting experienced to tier team, sufficient diversification by sector and geography and long-term focus. The Investment Compartment may invest directly in equity of companies with any market capitalization and nature of business activities but will generally focus on late-stage companies designed to benefit from further advances in the field of software and artificial intelligence. The Investment Compartment may also hold cash and cash equivalents, money market instruments and government securities. Leverage may be utilised primarily when expanding opportunities arise or other cases such as redemption coverage or working capital requirements. The use of Leverage may create an opportunity for increased returns to Investors but may also result in exposure to additional levels of risk including (i) greater losses from investments that would otherwise have been the case had no such leveraging occurred and (ii) reduced returns where the investment fails to earn a return that equals or exceeds the cost of Leverage related to such investments. The investment objective of the Investment Compartment does not include any considerations or objectives regarding sustainability and is not obligated to do so.

Intended retail investor

Apart from professional investors (as defined in the Second Appendix of the Investment Services and Activities and Regulated Markets Law 87(I)/2017 as amended from time to time), this product is also suitable for retail investors who: (i) qualify as well-informed investors (as defined in the AIF Law); (ii) have a high risk appetite; and (iii) are seeking returns over the long term. The investor's objective for this investment should be aligned with the objective of the product as outlined above and in the Investment Compartment's offering supplement.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Summary Risk Indicator ("SRI")

This product is classified as 6 out of 7 which is the second-highest class. This classification is based on the PRIIP Methodology for Market Risk Measure (MRM). This rates the potential losses from future performance at a very high level and poor market conditions are very likely to impact the capacity to pay you. Please note that the product's classification is not constant and may change over time. Other risks materially relevant to the product that are not included in the SRI include liquidity risk, operational risk, environmental risks etc.

This SRI assumes you keep the product for 15 years. The actual risk can vary significantly if you cash earlier, and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

For more information, please refer to section below "HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY". The SRI is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Market developments in the future cannot be accurately predicted. The scenarios shown in the section "Performance Scenario" below are only an indication of some of the possible outcomes based on projected returns. Actual returns could be lower. A comprehensive analysis of the relevant risks, including general risks (i.e. investment shares carrying non-voting rights, political, economic, legal and currency risks), management risks, and other risks are elaborated in the "RISK FACTORS and INVESTMENT CONSIDERATIONS" section of the Company's prospectus and the Investment Compartment's offering supplement, respectively. This product does not include any protection from future market performance, so you could lose some or all your investment.

Performance Scenarios

Recommended holding period: 15 Years		Investment \$10,000		
Scenarios		If you exit after 1 Year	If you exit after 8 Years	If you exit after 15 Years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment			
Stress	What you might get back after costs	\$8,730	\$1,834	\$2
	Average return each year	-12.70%	-19.10%	-43.83%
Unfavourable	What you might get back after costs	\$9,230	\$4,922	\$1,120
	Average return each year	-7.70%	-8.48%	-13.58%
Moderate	What you might get back after costs	\$9,630	\$17,949	\$80,321
	Average return each year	-3.70%	7.59%	14.90%
Favourable	What you might get back after costs	\$9,730	\$24,550	\$153,720
	Average return each year	-2.70%	11.88%	19.98%

This table shows the money you could get back over the next fifteen (15) years, under different scenarios, assuming that you invest \$10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. This means it is difficult to estimate how much you would get back if you are willing to cash in before the recommended holding period (15 years).

WHAT HAPPENS IF THE PRIIP IS UNABLE TO PAY OUT?

In the event of default of the Investment Compartment, the investors are expected to face a financial loss. Deposits by collective investment schemes are excluded from the Cyprus Deposit Guarantee and Resolution of Credit and Other Institutions Scheme. The investors in the Investment Compartment are not protected by any investor compensation or guarantee scheme.

WHAT ARE THE COSTS?

The Reduction in Yield ("RIY") shows what impact the total costs you pay will have on the investment return you might get. The total costs consider, one-off, recurring and incidental costs. The person advising on, or selling, this product may charge additional costs. If so, this person

will provide you with information about these costs and how they affect your investment. The amounts shown here are the cumulative costs of the product itself, for one holding period. The figures assume you invest \$10,000. The figures are estimates and may change in the future. Annual cost impact illustrates how costs reduce your return each year over the recommended holding period.

Costs over time

Investment \$10,000			
Scenarios	If you exit after 1 year	If you exit after 8 years	If you exit after 15 years (recommended holding period)
Total Costs	\$70.0	\$560.0	\$1,050.0
Annual cost impact	0.70%	0.41%	0.10%

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

One-off costs upon entry or exit		
Entry costs	We do not charge an entry fee	\$0
Exit cost	We do not charge an exit fee for this project, but the person selling you the product may do so	\$0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.03% of the value of your investment per year	\$0.30
Portfolio transaction costs	0.004% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	\$0.04
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product	\$0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

The lock-up period in which investors are not allowed to sell CASCADE 8 Investment Shares is the earlier of events 1) fifteen (15) years since Investment Compartment inception; or 2) all underlying assets constituting compartment are cashed out as a result of series of liquidity events; or 3) in case of a return of capital to the sub fund and provided there are no other viable investments, the Fund Manager may at its own discretion authorize a redemption of cash only, equal to the capital return amount or less and 4) in exceptional cases the Fund Manager may decrease the lock-up period at its own discretion. The 15-year recommended holding period is appropriate because the product is designed for long term investment. The value of investments may go down as well as up irrespective of the period investments are held, depending on such factors as the performance of the product and market conditions. CASCADE 8 Investment Shares may be redeemed on a quarterly basis i.e. on the first business day of each quarter being the dealing day and on any other date that the Fund Manager may determine at its absolute discretion, upon consideration of a request for an ad-hoc redemption. Any transactions with respect to the CASCADE 8 Investment Shares may be subject to exit fees (please refer to section "COMPOSITION OF COSTS"), taxes, transaction or advisor fees.
